WEDNESDAYJUNE 5. 1878.

LAND DEVELOPMENT.—Nothing, perhaps, is more significant of the extensive emigration to the West that has been going forward since the first of the year than the land sales made during this period by the leading western railways. The statements of fifteen companies west of Ohio give the startling total of 904,182 acres sold during the first four months of 1878, the price per acre ranging from \$3.30—the Kansas-Pacific railroad average—to \$12.68, the average of the Grand Rapids and Indiana railroad. The contrast with last night is even more striking. Thus, while the Northern Pacific railroad during the arst four months of 1877 sold but 81,175 acres, during the same period of the present year its sales amounted to 165,564 acres, and the Kansas-Pacific's to 127,272 against 31,724 last year. This is indeed rapid development, and it could not well have been more happily timed, for the West is suffering from a glut of food, and the East from a surplus of labor .- Baltimore Sun.

The situation of this property on the best part of Broad street and near to the Second Market makes it exceedingly desirable for business purposes, and its arrangement is the best possible for yielding income, its present rental even now being above \$2,000, so that few, if any, pieces of property now in the market can equal it as a first-class investment. Property of such value is rarely offered for sale.
